About Intec Pharma Ltd.

Intec Pharma Ltd. is a clinical stage biopharmaceutical company focused on developing drugs based on its proprietary Accordion Pill platform technology. The Company's Accordion Pill is an oral drug delivery system that is designed to improve the efficacy and safety of existing drugs and drugs in development by utilizing an efficient gastric retention and specific release mechanism. The Company's product pipeline currently includes three product candidates in clinical trial stages: Accordion Pill Carbidopa/Levodopa, or AP-CDLD, which is being developed for the treatment of Parkinson's disease symptoms in advanced Parkinson's disease patients, currently in Phase III, Accordion Pill Zaleplon, or AP-ZP, which is being developed for the treatment of insomnia, including sleep induction and sleep maintenance, and an Accordion Pill that is being developed for the prevention and treatment of gastroduodenal and small bowel ulcers induced by Nonsteroidal Anti-Inflammatory Drugs. In addition, an Accordion Pill for cannabinoid therapies (AP-CBD/THC) will enter Phase I clinical trial in the first quarter of 2017.
